## **Effective Immediately**

The 25-yard pistol range rules have been amended to mirror the 50-yard and 100-yard range rules.

### **What does this mean?**

It means that all calibers and configurations of firearms allowed on the 50-yard and 100-yard ranges are now allowed on the 25-yard range. This includes rifles, PCC's and short barreled shotguns. Please act responsibly and always have safety in mind.
